**Delivery Contents:**

New unit soon to begin production, still freely configurable.

Diesel backup power unit with an MTU diesel engine in an exhaust-optimized design, installed in a sound and weather protection hood (powder-coated in RAL 9010) with lockable maintenance doors on the side.

The 990 liter tank is integrated into the base frame including the oil collecting pan.

Fully automatic control make ComAp type: IG 4 200 (optional IG 4 500) installed on the unit behind a privacy door, with electric start 24 volts, with cooling water preheating approx. 5 KW / 400 volts and battery charger including 4-pole generator switch. Prepared for emergency power operation including mains parallel operation, control of a synchronizable external motor-driven power section (mains generator switch), manufactured in accordance with CE guidelines.
